PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building and deploying scalable web applications, including Learning Management System (LMS) platforms, specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js), JavaScript and TypeScript. Skilled in RESTful API design, database design, AWS, Docker and CI/CD. Recently architected a multi-tenant AI SaaS using RAG, Python and Django REST Framework. CEH and CPT certified.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, Core Java
Frontend	React.js, Redux Toolkit, RTK Query, HTML5, CSS3, Tailwind CSS, Bootstrap, shadcn/ui
Backend	Node.js, Express.js, RESTful APIs, JWT Authentication, WebSockets (Socket.IO)
Databases	MongoDB, PostgreSQL, pgvector, Redis, Firebase
Cloud & DevOps	AWS (EC2, S3, Route 53), Oracle Cloud, Docker, Nginx, CI/CD (GitHub Actions), Git, Postman
AI / LLM	Retrieval-Augmented Generation (RAG), LLM APIs (Google Gemini), vector search, embeddings
AI Dev Tools	Claude, ChatGPT and Gemini for AI-assisted coding, debugging, code review and documentation
Core Competencies	System Design, Clean Architecture, MVC, REST API Design, Database Design, Application Security, Performance Optimization, Payment Gateway Integration, Responsive Web Design
Familiar with	Python, Django REST Framework, pytest, Jest

PROFESSIONAL EXPERIENCE

Full Stack Developer | AVAIBE · Remote — Aug 2024 - Present

- Build and maintain Learning Management System (LMS) platforms end to end, from backend APIs to the web front end.
- Deliver features across multiple LMS products as part of a fully remote team.

Full Stack Engineer | Cygnotech Labs · Kochi, Kerala — Nov 2023 - Apr 2024

- Built RESTful APIs and full stack applications with React.js, TypeScript, Node.js, Express.js, MongoDB and PostgreSQL.
- Deployed applications on AWS (EC2, S3, Route 53) and contributed to a clean, scalable application architecture.

Java Developer Intern | Inmakes Infotech Pvt. Ltd. · Kochi, Kerala — Jan 2023 - Jun 2023

- Supported backend development in Core Java and built responsive React.js interfaces with Tailwind CSS.

PROJECTS

Mozhi AI | AI Customer Support SaaS (RAG) — Live Demo

Python · Django REST Framework · React · PostgreSQL + pgvector · Google Gemini · Redis · Docker

- Architected and built a multi-tenant SaaS where businesses add their own knowledge (text, Markdown, PDF) to an AI support assistant and embed it on any website with one script tag.
- Designed the RAG pipeline: topic-aware chunking, local fastembed embeddings in pgvector with an HNSW index, workspace-scoped cosine search and grounded Gemini answers with safe fallbacks.
- Hardened the LLM layer against prompt injection and cost overruns with budget guards, per-bot limits and Redis caching.
- Secured the platform with tenant isolation on every query, JWT auth with HttpOnly refresh cookies, email one-time codes, domain-locked widget endpoints, rate limiting and upload allow-lists.
- Built a Shadow DOM chat widget, a React dashboard (Tailwind CSS, shadcn/ui) and Razorpay subscription billing.
- Deployed on Oracle Cloud with Docker Compose, Nginx, HTTPS and GitHub Actions CI/CD; covered by 320+ pytest tests.

Gameo | E-commerce Web Application — Live Demo | GitHub

Node.js · Express.js · Handlebars · MongoDB · Bootstrap · Razorpay · Twilio · Cloudinary · Chart.js

- Built a server-rendered e-commerce store (Node.js, Express.js, Handlebars, MongoDB) with a Chart.js admin dashboard.
- Integrated Razorpay payments and Twilio OTP verification, with session auth, bcrypt hashing and Cloudinary uploads.

CERTIFICATIONS

Cybersecurity Intern | Red Team Hacker Academy — 2021 (6 months)

- Certified Ethical Hacker (CEH)
- Certified Penetration Tester (CPT)

EDUCATION

Master of Computer Applications (MCA), AI & ML | Amity University Online — Jan 2023 - Mar 2025

Bachelor of Commerce (B.Com), Computer Applications | Mahatma Gandhi University — Mar 2017 - Mar 2020

St. Mary's College, Thuruthiply
